

## Biological Drawing - Evaluation Scale

The following evaluation scale will be used (along with the coaching rubric specific to biological drawings).

### **Knowledge/Understanding**

- title	0	1		
- name, date	0	1		
- full sheet of plain paper, size - 70% of page size, circular field	0	1	2	3
- done in pencil	0	1		
- use of solid lines, stippling	0	1	2	
- magnification recorded (field of view-where applicable)	0	1		
- labelled (printed and aligned), arrows (with small arrowheads)	0	1		

**/10**

### **Communication**

#### *Completeness*

- contains both basic and detailed structures of the specimen	0	1	2	
---	---	---	---	--

#### *Accuracy and Precision*

- precise and realistic representation of the specimen	0	1	2	3
--	---	---	---	---

**/5**

**TOTAL: /15**

### **Points to Remember**

- use a ruler to underline and make straight lines
- use a descriptive and appropriate title
- use plain, unlined paper
- do not use pen
- this assignment must be completed manually (by hand)

**NOTE:** Be sure to hand this sheet in with your biological drawing assignment. A title page is not needed.
